## **The Players: The 10 Planets**

### **Part One: The Lead Roles**

#### **The Sun**

The Sun is the center of our solar system. It generously shares its radiance with the other planets. In Astrology, the Sun is the heart of the chart. It points to ways that your relationship needs to confidently shine. Keep the fires of your Sun burning brightly and proudly together. Love will follow. Happiness will fill your minds, bodies and souls. The Sun stands for ego needs, will power and creative vitality.

Forget your own Sun signs for the moment, Ashton and Demi.

Your shared Sun sign could be different than your individual Sun signs. Remember that we are talking about your combined Sun. It is the fusion of your two hearts.

#### **Sun in Capricorn**

A Sign is a psychological process through which a planet operates. As a couple, being solarized through the sign Capricorn points to a durable partnership. The keyword for Capricorn in traditional astrology is "I use". This means you like to put into action what you know. Each of you may enhance the strength of the other. A shared sense of responsibility in dealing with life circumstances emanates from the core of your relationship.

You possess a keen sense of reality. There is a no nonsense tone surrounding you. Each of you wants this relationship to be clearly defined from the beginning. Managing your time efficiently comes easily. There is tremendous follow through from start to finish.

You expect to be supported in the roles you choose to act out, whether this is in the form of career, parent or civic leader. A commitment to the love you cherish encourages intimacy.

Trust will come with the passing of time. Individual self-reliance can combine nicely with shared leadership. Both of you prove trustworthy in each other's eyes. Peers may admire your determination to work through problems.

You may influence each other to delay in taking a risk until it is very safe to do so. When the two of you make a major change, it can be done with tremendous conviction.

Watch out for acting too controlling. It will cause barriers to surface between you. Be harder on the problems than on each other. Your serious sides may need occasional lightening-up! Be careful about letting the feeling side of life become a stranger.

Learn to delegate some responsibility away from the relationship. Make sure there is time for each other. Active and ambitious lives outside of the home are very possible. A hard-working ethic may be a shared value. Be careful that neither one of you is a constant workaholic. Paying some attention to your private life will ensure balance.

A fear of rejection or commitment will create considerable distance. Learn how to

make each other feel comfortable. Each of you may need some solitude to maintain perspective.

Rigidity could be a nemesis. Learn to be flexible even when it is difficult. Leave room for new growth in the relationship. It is okay to enjoy the stability of the past. You probably have a respect for history and tradition. Do not fear change. See it as a new opportunity.

Your creative vitality can guide you to accomplish much together. Your focus on being a successful couple is tremendous. You take responsibility more serious than most. Discipline is likely something worth developing in your eyes. You can be the rock of Gibraltar in each other's lives. Acknowledge your partner's attributes and your days together will blossom.

### **Sun in the Ninth House**

Eclectic insights are your calling card. You don't care to waste time on dull moments--do you? Your hearts grow warmer when thinking about spending your money on travel and other adventures. Accepting most philosophies of the world comes naturally, as long as you are not expected to follow any one of them too dogmatically. You may become very devoted to a cause or belief that completely captures your imagination. The two of you love to be inspired.

Sharing a similar value system is possible. Where there are differences, don't judge one another. There is plenty of opportunity to find common ground. You will find a dream or two that must be fulfilled as individuals no matter how close in spirit you feel.

There is a great desire to seek knowledge. It is the excitement of learning that turns you on. Sharing your insights with each other stimulates cooperation. People can be moved by the enthusiasm with which you generate. Your luck and optimism can make others jealous.

It is okay to disagree once in a while. Communication will point the way back to harmony. Try to allow for differences of opinion. A narrow vision will tend to alienate.

When you feel bored, do something about it! Take a trip, go camping, buy a new book or go to the midnight movie.

Learn to focus. It is easy to find yourselves going in too many directions at once! Don't worry. Neither of you is meant for heavy routine.

Let go to an eager anticipation of the future. The pursuit of new challenges is calling to you from just over the horizon. Wandering the endless paths of each other's restless imagination can lead to surprising growth.

### **The Moon**

Countless song lyrics, poems and lofty dreams have been inspired through gazing at the Moon. The Moon's sign and house position represents the intimacy and feelings you share with each other. Establishing a sense of security and a home are other lunar sides of life. The Moon symbolizes the imagination you share from your inner landscapes.

## **Moon in Aries**

With your relationship lunarized through the sign Aries, your imaginations are vivacious and need to stay refueled. A sudden need for excitement is a reality. You may become more energized during times of emotional crisis. It is then that each of you may join forces to charge through an obstacle or challenging predicament.

There can be sudden impulses to do things together or independently. You don't like to tolerate dull moments--do you? Your instincts will lead you to boldly seek out new challenges. Stress may actually bring you closer together. There is a courageous capacity to care for one another. A sense of comfort can be found in the mutual support of each other's identity.

Spontaneity! This is a product of your being together. Your emotional chemistry attracts some degree of competitiveness from one another. If you integrate this quality harmoniously into your partnership, there can be a natural drive for individual and shared accomplishments.

Learn how to dance with the subconscious needs of each other. The Moon can symbolize our active imaginations. A pioneering spirit is definitely lit in your romantic liaison. Changing moods! They can come without a moment's warning. Don't let the sudden onset of fear or anger get the best of you. There is a steamy and passionate fire at the core of this relationship. Impulse will lead you to act izeRi6j 0 gas tok lto tolrmnts.

intrigue and mystery never hurts anything.

Your home is a refuge or escape for you both. Tranquillity is a must. The type of music, art or possessions you find meaningful must fill your residence. You may like to display items that hold special symbolic meaning. People visiting your home may be moved by its uplifting presence. The two of you don't care for stress here. You will do almost anything to make it go away.

Everyday life will flow better if you have a clear sense of reality. Your idealism will be tested. Your faith in each other and your beliefs can get you through just about anything. Don't give up your dreams if they are slow in manifesting.

A natural compassion for each other helps sort out your differences. Do not try to rescue one another from the lessons you need to learn.

Keep expectations realistic. Setting individual or relationship standards too high can create disappointment. The idea is to continue enjoying each other. This will not happen constantly. Accept the ups and downs.

Let your intuition guide you to walk together with sober eyes. You can be a lighthouse for each other, shining radiantly in the night, as the ship of your dreams is trying to land safely.

### **The Ascendant**

We are taking a short intermission from the planets to introduce you to an additional key part of your relationship. The Ascendant or Rising Sign is the sign that starts the 1st house of the chart. The Ascendant is one of the twelve signs with a special role serving as an ambassador. It acts as a persona or mask for an individual or a relationship. The Ascendant is the personality through which we interact with the world.

The Ascendant is the way we appear to others. It is their first impressions of us. You meet someone and he or she seems to be confident, shy, talkative, cheerful, etc. The same can be said for a couple. The two people might seem theatrical, dreamy, or businesslike.

### **Ascendant in Taurus**

People may see the two of you as having calm personalities, and acting as a stabilizing force for each other. Your partnership has an aura of serenity and peace. You could even look wealthy or financially secure, whether this is true or not. You move with grace and poise. It's not smart to try to force either of you into making decisions. Surprising one another with a gift now and then promotes a spirit of well being. Showing affection openly is comforting. Make each other feel valued, and you are a winning combination.

### **The Part of Fortune**

Your Sun, Moon and Ascendant can be combined or blended into a cosmic alchemy, known as the Part of Fortune. This is not a planet, but rather a reference point in the chart. The Arabian astrologers of the Middle Ages are given credit for its discovery. The Part of Fortune is said to show where we can expect to find good fortune and even luck.

Do we really need to take a look at something from the long ago past, if it will serve as nothing more than a relic to hang on the wall? A translation of this ancient symbol into modern terms makes this symbol worth investigating. Why? Because it can give clues to special paths that lead to harmony and a spirit of feeling united.

Think of the Part of Fortune as the potential corridor leading to Opportunity. It is a way to read the pulse rate of the partnership, indicating ways to reach a shared sense of fulfillment.

### **Part of Fortune in Leo**

Encourage each other to be creative. Your relationship can easily pave roads that bolster self-confidence. Show you are proud to be together. Play! Dance! Laugh! Taking a chance or two on a hunch can find you traveling adventurous highways. Life can be a shared joy of continuously falling in love. Your will power roars like a lion when you are truly engaged in passionate enterprises. The two of you experience good fortune through making courageous choices.

### **Part of Fortune in the Fourth House**

The closeness between you is special. It can be painful or frustrating when there is great emotional distance. You have a capacity to establish a wonderful intimacy. There is tranquillity and self-assurance when it feels like you are receiving adequate emotional support from one another. Your relationship gives you a sense of roots and security. Your intuition will sometimes put its ear to the ground and hear the footsteps of an opportunity coming, long before the gaze of your minds. Good luck comes when you are nurturing the paths that mirror the real you.

## **Part Two: The Supporting Cast**

### **Mercury**

Are you curious about the way the two of you communicate? In this section are Mercury's sign and house placements, showing some of your favorite communication tendencies. There is no end to your talk flow when showing faith and belief in each other's ideas.

Each of your minds is jet propelled by new paths to walk upon. You can delight in a shared joy to live each day to the maximum. Your friends can benefit from your broad perspective about life in general.

Your perceptions can be ferociously turned toward business interests. The word "trust" might send different sensations through your nervous systems. You like to think you can depend on each other in all life scenarios. You almost have to earn each other's allegiance. This comes with time and great patience.

You can have a joint attraction to studies of the mind and higher consciousness. A curiosity about the mysterious forces at work in your lives is possible. When you first met, was there a magnetic pull that was unexplainable? Your energies spark extra intensity in each other.

Your communication may need a catalyst to get it jump-started. Once ignited, the two of you can discuss anything. Talking through your fears or concerns tightens your connection. You can be great allies during a crisis. It may even be true that it's when you encounter challenges that you talk more. ### **Venus**

Without Venus, life would be lonely and meaningless for all of us. The goddess of love guides our Social Awareness and search for Aesthetic Beauty. The Venus sign and house positions most directly point to your search for a sense of balance, peace, comfort, love and mutual admiration.

### **Venus in Capricorn**

Your relationship is a Symbol of Determination. The social instincts of your relationship are flavored with a drive to meet influential people. There is a focus on fulfilling your ambitions. People could be jealous of the stability the two of you have together. Commitment is something you need, and yet you may fear it. When first meeting, you may have seemed somewhat reserved to each other, until getting to know one another. You are a couple that makes use of a reality-based approach to life.

The two of you may view comfort as being on the move in new directions. You will

be resting more out of fatigue than by choice. Your joint consciousness is motivated by the possibility of stimulating opportunities. Your closest acquaintances likely agree with your highest principles. Honest people can win your hearts.

A stable commitment might make life seem too ordinary. Yet it does keep you more grounded. Watch your follow through together. It could be frustrating to leave too many loose ends in finishing projects or defining plans. There is a potential to achieve much as you move on a few fronts simultaneously.

Together you can display a positive approach in meeting life head-on. Your companionship is a ticket to creative impulses you may never have known existed.

## **Mars**

The ancients considered Mars the god of war. The warrior planet can translate into heated exchanges with each other. Mars arouses Passion in the form of sex, anger or a desire to forge ahead as a swash buckling couple. Mars is still the ruler of combat. It points to the primal competitive instincts embedded deep within each of us. In modern terms, this fiery red planet's sign and house placement are associated with assertion and acting on impulse.

## **Mars in Leo**

The warrior in you adds up to energy plus! You two can put tremendous force into anything you decide to do. Your ability to get mobilized with little notice is just short of remarkable. You both get motivated through facing situations that cast ominous clouds on your feelings of security. It gives you a sense of renewed purpose to stand tall together when riding out emotional storms. Your trust deepens when supporting your partner through a personal struggle.

## **Jupiter**

The largest planet in the sky is Jupiter. This happy-go-lucky cosmic giant is more than twice the size of all the other planets put together. Jupiter spins on its axis with great enthusiasm, doing this faster than any other planet. Jupiter's sign and house denote themes related to learning, optimism, travel, philosophical beliefs, luck and generosity. Inspiration that flows between two people can be traced to our good-natured friend in the sky.

### **Jupiter in Aries**

You seek inspiration through bold new enterprises. There are few things the two of you are afraid to try. It is important that your interest is captured quickly, or you will soon move on to more stimulating activities. You are not a couple that likes to wait for others to make up their minds. They better get on your train fast, as it is usually leaving a few minutes earlier than scheduled. Your heads can get together speedily on decisions. People may wonder why you are so lucky. It's probably more true that your swift intensity simply makes people and circumstances respond to you favorably. You like to make your mark on life just as a cat does to claim its territory.

Legal smarts are something you may share. The two of you are going to fight for your beliefs. The falsifying of truth by unscrupulous individuals angers you both. Each of you takes your principles and ethics quite personally. You may even argue with each other about the rights and wrongs of society. You expect your partner to show faith in you-- don't you?

Travel is a good way to become more positive about the past, present and future. You are two very sensitive people. Be sure that you don't do things for one another due to guilt. Talk straight on a regular basis.

You make good teachers. Your way of making others feel accepted gets them to want to learn. Capturing the imagination of the young and old is within your grasp. You make each other always feel young. It is the innocence with which you gaze at life that brings in new enriching experiences.

### **Saturn**

Astronomers say that if Saturn fell from the sky it is light enough to float on an ocean. Some people dread hearing about where Saturn is in their chart more than they do going to the dentist! The fortune tellers of old always painted this planet with "heavy" interpretations. They presented this planet as being a god of doom and gloom. In modern astrology, this motif denotes endurance and ambition. In mythology, Saturn was Chronos, the god of time, reflecting the wisdom that can be learned from past experiences. You could say Saturn is a "Cosmic Chiropractor", showing adjustments needing to be made along life's way. There can be frustration in repeating the same mistakes. Saturn's sign and house themes are associated with Commitment and Reality-Testing. The two of you may find clues here about how you define your relationship roles. Career drive is a Saturn hallmark. Saturn shadows are fear, rigidity and a need to be compulsively controlling. There is no longevity without partners dealing with the symbolism of this particular celestial wanderer. With a lot of practice and patience the two of you can get good in making this side of your relationship flow--honest! Saturn can become more a god of Success!

### **Saturn in Scorpio**

It is quite an adventure to really get to know one another. This is not likely to happen overnight. You both can show caution in warming up to each other. When the trust deepens, you have a solid relationship. Your focus together is hard to match. When you

put your best foot forward to be successful there is nothing that can stop you. Talk openly about your fears and worries. The better you understand the other's mind, the clearer the communication.

Joint investments can prove prosperous. Sharing your resources is testy. Each of you needs to feel part owner in the finances and property. Money issues can cause tension. You will need to be honest and direct in this area. Power is a key consideration. It must be shared. Why? It causes less arguments.

You both will put all of yourselves into the roles that are important to you. Whatever is entrusted to you is treated with serious regard. Management opportunities will present themselves to you. People see you as task-oriented and capable of getting results. The two of you make great problem-solvers. Business savvy comes standard with you two. You can market your skills to a receptive public.

Experience teaches you how to interact with one another. Solitude is a tendency as individuals and as a couple. The world may never know your complete stories. Who cares? Just so you reveal them to each other!

### **Saturn in the Seventh House**

You are a persistent twosome when it comes to negotiating with others. People probably see you as unwilling to waste time. There is a businesslike atmosphere in the way you relate to others. Your social engagements can introduce you to people with influence. You might prefer self-reliant individuals. Planning is one of your strong points. You may be uncomfortable when first meeting strangers. It could take a while to warm up to new surroundings. A clear definition of your relationship is a must. You need to have an explicit understanding in what each of you hopes to achieve together.

Business and career aspirations are mutual interests. You bring out great ambition in one another. Neither of you cares for a person not taking their responsibilities seriously. You both expect others to perform at high levels. Rewarding sincere effort could be a common belief.

Your love for one another increases when you truly show how much you care. Controlling behaviors cause distance between your hearts. You are at your best when helping each other find confidence. Designing strategies that lead to success is a talent. Each of you may be influenced somewhat by traditions. Let one another feel free to be themselves. It creates a warmer closeness.

### **Uranus**

Try to visualize a maverick planet orbiting on its side, whereas the other planets sit straight up and down. Uranus! This planet was discovered in the eighteenth century, sandwiched in between the American and French Revolutions. Is it any great wonder that this planet's sign and house occupations show our individuality and innovative ideas? Experimentation. Inventiveness. ### **Neptune**

There is a planet that adds a mystical tone to our lives. Neptune defies being labeled as part of the physical world. It is our spiritual awareness on one hand and desire to escape from earthly reality on the other. Both are possible!

In mythology, Neptune was Poseidon, god of the oceans. This water god represents the strong emotions that love activates. Do the two of you feel any common ground when it comes to your highest beliefs? If you do, it might be associated with this planet's symbolism.

Faith is a Neptune theme. Neptune's sign and house will point to the ideals and causes you share. Your intuitive insights into one another can also be revealed here. Shadows of Neptune are denial and guilt. Keep these tendencies in check. It will ensure greater clarity and closeness. If you don't, it can feel like you are eating chicken broth with a fork.

Following a course of action may become necessary, rather than waiting past the chance to make the best of an opportunity. You can worry about editing the plan later, after the fog clears, or the more sound reasoning returns.

We must let go of a part of ourselves to be in a relationship. This scares some people and seems like a fair deal to others. This planet teaches us that letting go and trusting one another are rewarding paths. Facing the tests of Pluto together is the breakfast of champions.

### **Midheaven**

Just as the Ascendant was described as a sign serving a special purpose, there is a sign referred to as the Midheaven, with a special mission of its own. This is the sign at the beginning of the 10th house of a chart. A palm reader can interpret the career line embedded in your hand. There needs to be a clear sense of responsibility and commitment. There may be a tradition one or both of you holds sacred. Allow for an occasional surprise to occur. There will be milestones to celebrate; creating happy memories to look back upon.

## **Part Three: Planetary Aspects**

It's time now to mention another technical side of your report. (If you don't like technical explanations, skip right to the Aspect Interpretations). You have already been introduced to the ten planets. Certain planetary pairs in your chart have a special relationship to one another due to particular angular distances separating them, known as aspects. You could almost say the two planets in an aspect travel and interact together along the same circuit. The following aspect interpretations or descriptions will be listed under five types. Two are known as the soft aspects: the sextile (60 degrees) and trine (120 degrees). These two aspects generally point to more gentle themes found in your

relationship. They indicate a lower voltage of electricity and produce less friction. The planets involved in a trine or sextile are more likely to be areas where you flow together without much effort.

The more hard or intense aspects are the conjunction (0 degrees), square (90 degrees) and opposition (180 degrees). They require our understanding and will point to key ways the two of you must communicate and negotiate. Planets that are part of an intense aspect will show how you energize one another. These higher voltage aspects don't mean you want to avoid them, but more so to develop a true understanding of how to use this energy constructively. "Soft" does not mean good and "intense" does not imply bad. It is often the more intense aspects that deepen the bond of a partnership. The interpretation of any planetary aspect depends greatly on the symbolism of the two planets forming an aspect.

It might be helpful to keep some key words in mind for the aspects. The sextile is a promise of Excitement and Eagerness. The planets in this aspect give clues how your energies support one another. The trine is a special Harmony shown by two planets. There is often positive regard for one another that comes spontaneously. We expect good things to be delivered in the trine.

The conjunction is where two planets are joined at the hip. There is a Fusion or powerful blending of these two energies. The square can reveal where you will encounter Friction in your relationship. Pay special attention to these aspects, as they are opportunities for growth as much as discord. The opposition requires a Balancing act. It is similar to a seesaw. Each of you may find yourselves taking turns in acting out one planet or the other.

It might be helpful to refer to Parts One and Two to refresh your memory about the meaning of the Planets, Ascendant and Midheaven, as you read the aspects that follow. Remember that it is usually the more intense aspects that stretch us the most. The more positively you use these challenging planetary combinations the greater will be your understanding of each other.

Note that a planet might be involved in several different aspects. In other words, the planet is interfacing its energies with numerous other planets (or even with the Ascendant or Midheaven). A "heavily aspected planet" plays a key role in your relating to each other.
